

Absolutely No Worries

SCAVENGER HUNT!

How to Get Ready

1. Print one copy of each of the large images. Also print copies of the "Help Emma Find Her Supplies" handout for each kid who will be participating.
2. Before the kids arrive, place the large images somewhere in the room or area where you will be doing the scavenger hunt. The better you hide them, the more challenging the activity will be.
3. As kids arrive, provide each with a handout. Explain that the images displayed on the sheet are hidden somewhere in the room and they should look for each image. When an image is found, kids can circle it on their handout without moving the image or revealing its location to others.
4. When you're ready to wrap up, discuss the locations of each image as a group.
